Revised K to 10
Curriculum
Weekly Lesson Log

SCHOOL	Kapt. Jose Cardones Integrated School	GRADE LEVEL	VIII
NAME OF TEACHER	Kim Sala	SUBJECT	Technology and Li
DATE AND TIME	September 28 – October 2, 2026 VIII- DIAMOND -12:55 - 01:40 VIII- TOPAZ - 02:25 - 03:10 VIII – AMETHYST - 04:05 - 04:50 VIII – JADE - 04:50 - 05:35	TERM	First
		NUMBER OF SESSION	5

SESSIONS	SESSION 1 MONDAY	SESSION 2 TUESDAY	SESSION 3 WEDNESDAY	SESSION 4 THURSDAY	
Learning Area	AGRI-FISHERY ARTS			INFORMATION AND COMMUNICATION	
Lesson Title	RA 7877 and Situational Analysis in Beauty Care and Wellness	Trends, Issues, and Challenges in Beauty Care and Wellness	Synthesis and Formative Assessment on Legal Basis and Salon Challenges	Introduction to Graphic Design Tools: Tool Types and Purposes	Introd Design Function
References (books, websites, toolkits, etc.)	Department of Education. Grade 8 TLE AFA/FCS/IA Three-Term Budget of Work, Second Term, Week 2. Department of Education. Lesson Exemplar for TLE 8, Quarter 3, Lesson 2 (Week 2). G8 - Q3 - WEEK 2 - EDITABLE PPT; DLL FCS 8 Week 2 D1-D5. Department of Education. Grade 8 TLE ICT Three-Term Budget of Work, Second Term, Week 2. Department of Education. Lesson Exemplar for TLE 8, Quarter 1, Lesson 4 (Week 4): Graphic Design Software.				
Learning Resources: List down the learning resources that will help you reach your objectives. Ensure that they are available and inclusive. Include options and alternatives in case of emergencies.	• PowerPoint Presentation for discussion • White board marker • Building futures essential skills in technology livelihood education • Notebook • Images	• PowerPoint Presentation for discussion • White board marker • Building futures essential skills in technology livelihood education • Notebook • Images	• PowerPoint Presentation for discussion • White board marker • Building futures essential skills in technology livelihood education • Notebook • Images	• PowerPoint Presentation for discussion • White board marker • Building futures essential skills in technology livelihood education • Notebook • Images	• PowerPo discussio • White bo • Building skills in te educatio • Noteboo • Images
Declaration of AI use Cite how AI was used in the formulation of the lesson plan. See DO 3, 2026 Annex A.	Consistent with the policy guidelines on the use of AI in basic education, I, KIM SALA, hereby declare that I have used AI tools to assist in the delivery of teaching and learning materials. Gemini and Chat GPT was used to organize the lesson plan into the required matrix format, align the Budget of Work learning competencies, Lesson Exemplar, DLL, and PPT content, and draft the teaching-learning flow while keeping the BOW as the controlling reference. The teache reviewing, contextualizing, and validating the lesson before classroom use. I affirm that the use of AI tools was intended solely to enhance the quality of instructional materials, align with curriculum standards, and su and learning process. All outputs have been reviewed, adapted, edited, and validated using my professional expertise and judgment to ensu appropriateness, and alignment with learners' developmental needs and levels. Likewise, I affirm that no confidential learner information or sensitive institutional data was shared with the AI platform identified above in th				

Intentions	*Meaningful learning experiences are anchored in how we frame them. Start by deciding what you want learners to master by the end of the lesson - keep and simple.* *Remember: Understanding your learners' evolving context and designing around it help ensure that your lessons connect with and are relevant to them.*				
Learning Competency and Curriculum Standards: Write the competency/ies from the curriculum that we are targeting, and the content or performance standards applicable to the sessions.	**FAMILY AND CONSUMER SCIENCE** **Content Standard:** The learners demonstrate an understanding of the concepts of beauty care and wellness services. **Performance Standard:** The learners perform hand spa services following safety precautions. **Learning Competency(ies):** Discuss the legal basis in beauty care and wellness services; identify trends, issues, and challenges in beauty care and wellne services. **INFORMATION AND COMMUNICATION TECHNOLOGY** **Content Standard:** The learners demonstrate an understanding of graphic design tools. **Performance Standard:** The learners create videos with graphics design in a safe and responsible manner. **Learning Competency:** Introduction to Graphic Design Tools Annotation: The competencies Follow the second term, Week 2 Bow. The FCS sessions the legal basis trends, issues and challenges, while the ICT sessions introd				
Learning Objectives: Write the smaller knowledge, skills, or tasks from the competency that the learners will work on and be able to show by the end of the sessions.	At the end of the session, learners are expected to: **Cognitive:** Discuss Republic Act No. 7877 in relation to beauty care and wellness services; Explain proper actions in workplace-related situations in beauty care and wellness services. **Psychomotor:** Analyze picture situations related to safe and respectful workplace behavior; Analyze given situations and suggest safe, legal, and professional responses. **Affective:** Show respect for the rights and dignity of salon workers and clients; Demonstrate responsible decision-making in salon-related situations.	At the end of the session, learners are expected to: **Cognitive:** Identify selected trends, issues, and challenges in beauty care and wellness services; Discuss additional challenges in beauty care and wellness services. **Psychomotor:** Create a simple issue-solution table for beauty salon challenges; Classify challenges as worker-related, customer-related, product-related, or business-related. **Affective:** Recognize the importance of training and safe products in salon services; Appreciate the value of motivation, compensation, updated skills, and customer service.	At the end of the session, learners are expected to: **Cognitive:** Summarize the legal basis, trends, issues, and challenges in beauty care and wellness services. **Psychomotor:** Answer formative questions about legal and business concerns in salon work. **Affective:** Show awareness of safe, respectful, and quality beauty care services.	At the end of the session, learners are expected to: **Cognitive:** Identify common graphic design tools and distinguish raster, vector, online, and offline tools in simple terms. **Psychomotor:** Match design tasks with suitable tool types or methods using a tool tracker. **Affective:** Show responsibility in selecting safe and appropriate tools for graphic production.	At the end of the sessi learners are expected t **Cognitive:** Describe the parts of a graphic desig workspace, including m bar, toolbar, options ba canvas, and panels. **Psychomotor:** Match common tool functions simple graphic product tasks. **Affective:** Demonstrate and patience when exp unfamiliar design tools
Learner Context: Write your observations of your learners, and how they have been performing or					

graphic design tools. The content and performance standards also give direction to the learning activities

responding to learning experiences recently. Include strengths, interests, and possible barriers to learning.					
Learning Experience	*A learning experience is like a thoughtfully designed journey. Each activity and interaction builds towards meaningful understanding and growth. Identify activities and interactions to help learners gain knowledge, skills, or understanding in a purposeful way.*				
Pre-Lesson: Describe how you will help the learners get ready for the lesson. Annotation: The reading passage and the 5 questions get learners ready for the topic before the main discussion. They also give the teacher an early idea of how well learners understood the reading, and prepare them for activities	**Directions:** Read the passage carefully. Answer the **5 questions** that follow. For Questions 1–5, write the **letter of the best answer** on your answer sheet. **Passage** **RA 7877 and a Safe Workplace in Beauty Care and Wellness** Republic Act No. 7877, also known as the **Anti-Sexual Harassment Act of 1995**, addresses sexual harassment in employment, education, and training environments. In the beauty care and wellness industry, workers may interact closely with clients, coworkers, supervisors, and trainees. Everyone has the right to a safe and respectful workplace. For example, a beauty salon employee is assisting a client when the client repeatedly makes unwanted sexual comments and asks the employee to perform an inappropriate act. The employee clearly says that the behavior is unwelcome, but the client continues. This situation should be taken	**Directions:** Read the passage carefully and understand the situation presented. Then, answer each question by choosing the letter of the best answer. Write your answers on your answer sheet. **Passage** Understanding Trends, Issues, and Challenges in Beauty Care and Wellness The beauty care and wellness industry continues to change as new products, technologies, services, and customer preferences develop. One current trend is the increasing use of natural and organic beauty products. Many customers are becoming more interested in products made from natural ingredients and those that are considered environmentally friendly. Another trend is the use of digital technology, such as online booking, social media marketing, and virtual consultations. Despite these opportunities, beauty care and wellness professionals face several issues and challenges. One	**Directions:** Read the passage carefully. Analyze the situation and the information presented. Then, answer each question by **choosing the letter of the best answer**. Write only the **letter of your answer** on your answer sheet. **Passage** **Applying Legal Knowledge to Salon Challenges** A professional beauty care and wellness worker must understand not only how to provide quality services but also how to maintain a safe, respectful, and lawful workplace. Laws such as **Republic Act No. 7877, or the Anti-Sexual Harassment Act of 1995**, help protect individuals from sexual harassment in workplaces, educational institutions, and training environments. Salon workers may also face different challenges, such as difficult customers, workplace conflicts, unsafe practices, poor sanitation, misinformation about beauty products, and pressure to perform services that may be	**Directions:** Read the passage carefully. Understand the purpose of each graphic design tool described. Then, answer **Questions 1–5** by choosing the **letter of the best answer**. Write the letter of your answer on your answer sheet. **Passage** **Introduction to Graphic Design Tools** Graphic design uses different tools to create, edit, and improve visual materials such as posters, logos, advertisements, presentations, and social media graphics. Each tool has a specific purpose, and choosing the correct tool helps a designer work more efficiently. The **Selection Tool** is commonly used to select and move objects or parts of an image. The **Crop Tool** removes unwanted portions of a picture and helps improve its composition. The **Text Tool** allows designers to add and edit words in a design. Designers	**Directions:** Read the passage carefully. Identify the important information about the graphic design workspace, tool functions, and responsible tool selection. Then, answer **Questions 1–5** by choosing the **letter of the best answer**. Write only the letter of your answer on your answer sheet. **Passage** **Understanding the Graphic Design Workspace** A graphic design workspace is the area where designers create, edit, and organize their visual projects. It usually contains different parts such as the **toolbar, menu bar, canvas, panels, and workspace area**. The canvas is where the actual design is created, while the toolbar provides access to different tools used for editing and creating visual elements. Each graphic design tool has a specific function. The **Selection Tool** can be used

	seriously and reported to the proper person or authority according to workplace procedures. Another situation may involve a supervisor who makes unwanted sexual remarks toward an employee and suggests that the employee may receive better work opportunities in exchange for accepting the behavior. *Employees should understand* that they have the right to refuse inappropriate conduct and seek help through proper reporting channels. In beauty care and wellness, professionalism means respecting personal boundaries, maintaining appropriate communication, and helping create a workplace where employees and clients feel safe. Knowing RA 7877 helps workers recognize inappropriate behavior and understand the importance of reporting and preventing sexual harassment. **Questions** **1. What is the main purpose of RA 7877?** A. To regulate the prices of beauty products B. To prevent and address sexual harassment in workplaces, schools, and *training environments* C. To provide free beauty services to workers D. To regulate salon operating	challenge is keeping up with changing trends and technology. Professionals need to improve their skills and learn how to use new equipment and techniques. Another issue is the presence of false or misleading information online, especially about beauty treatments and products. Professionals should provide accurate information and avoid making claims that cannot be supported. Health, safety, and sanitation are also important challenges. Beauty professionals must properly clean and sanitize tools and equipment to help prevent the spread of infection. They should also consider clients' allergies, skin conditions, and other safety concerns before providing services. A successful beauty care and wellness professional should be adaptable, responsible, knowledgeable, and committed to providing safe and quality services. Understanding current trends while responding responsibly to issues and challenges helps professionals meet customer needs and maintain trust. Questions **1. Which is an example of a current trend in beauty care and wellness mentioned in the passage?**	inappropriate or unsafe. These challenges require workers to make responsible decisions while following workplace policies and applicable laws. For example, a salon employee notices that a coworker is being subjected to unwanted sexual comments by a supervisor. Instead of ignoring the situation, the employee should recognize that the behavior may be inappropriate and encourage proper reporting through established workplace procedures. In another situation, a client requests a beauty treatment even though the worker knows that the procedure may cause harm because of the client's condition. The worker should prioritize safety and explain the concern professionally. By combining knowledge of legal responsibilities with proper workplace practices, beauty care and wellness workers can help create a professional environment. Respect, safety, sanitation, responsible communication, and awareness of legal protections are important in handling everyday salon challenges. **Questions** **1. Why is knowledge of legal responsibilities important**	can change the font, size, style, and alignment of text to make information clear and attractive. The **Shape Tool** is used to create basic shapes such as rectangles, circles, and lines. These shapes can be combined to create icons, illustrations, or design elements. The **Brush Tool** allows designers to draw or paint digitally, making it useful for creating artistic effects and freehand designs. The **Zoom Tool** helps designers view details of their work more closely or see the entire design. Other tools may be available depending on the graphic design software being used. Understanding the purpose of each tool allows designers to select the appropriate tool for a specific task and produce organized and effective visual designs. **Questions** **1. What is the main purpose of the Selection Tool?** A. To add text to a design B. To select and move objects or parts of an image C. To remove unwanted parts of a picture D. To create digital paintings **2. A designer wants to remove an unwanted area around a photograph. Which tool should be used?**	to select and move objects, while the **Crop Tool** removes unwanted areas of an image. The **Text Tool** is used to add words, titles, and labels. The **Shape Tool** creates basic shapes, while the **Brush Tool** can be used for freehand drawing and digital painting. Responsible selection of tools means choosing the tool that is appropriate for the task. A designer should avoid using unnecessary tools that may damage or change the design. Designers should also consider the purpose of the project, the quality of the output, and the needs of the intended audience. Using tools properly helps create clear, organized, and effective visual communication. For example, if a student is designing a school poster and needs to add a title, the **Text Tool** is more appropriate than the Crop Tool. If the student needs to remove unwanted parts of a photo, the **Crop Tool** should be selected. Knowing the purpose of each tool allows designers to work efficiently and make better design decisions. **Questions** **1. What is the main purpose of the canvas in a**

	hours **2. A salon client repeatedly makes unwanted sexual comments toward an employee even after being told to stop. What should the employee do?** A. Ignore the behavior completely B. Respond with inappropriate comments C. Report the incident through the proper workplace procedures D. Quit immediately without informing anyone **3. A supervisor suggests that an employee will receive better work opportunities if the employee accepts unwanted sexual behavior. What is the main concern in this situation?** A. Proper product selection B. Workplace safety and sexual harassment C. Customer service training D. Salon equipment maintenance **4. Which action demonstrates professionalism in a beauty care and wellness workplace?** A. Making inappropriate jokes about coworkers B. Ignoring a person's personal boundaries C. Respecting personal boundaries and communicating appropriately D. Allowing clients to behave however they want **5. Why is it important for beauty care and wellness**	A. Avoiding all forms of technology B. Using natural and organic beauty products C. Stopping customer consultations D. Removing sanitation procedures **2. Why is it important for beauty professionals to keep up with new trends and technology?** A. To avoid learning new skills B. To provide updated and appropriate services to clients C. To increase the number of workplace problems D. To stop using modern equipment **3. What is one issue caused by false or misleading information online?** A. Clients may develop incorrect expectations about beauty products or treatments B. Professionals automatically become more skilled C. Beauty services become safer D. Sanitation standards automatically improve **4. Which practice helps maintain health and safety in a beauty care workplace?** A. Reusing unclean tools B. Ignoring clients' allergies C. Properly cleaning and sanitizing tools and equipment D. Using products without checking their safety	**for beauty care and wellness workers?** A. It helps workers ignore workplace problems. B. It helps workers understand their rights, responsibilities, and proper workplace conduct. C. It allows workers to avoid following salon policies. D. It prevents workers from communicating with clients. **2. A supervisor makes repeated unwanted sexual comments toward an employee. What is the most appropriate response?** A. Ignore the behavior permanently. B. Encourage the employee to follow proper reporting procedures. C. Make similar comments to the supervisor. D. Share the incident as entertainment on social media. **3. A client requests a treatment that may be harmful because of the client's condition. What should the salon worker do?** A. Perform the treatment without asking questions. B. Prioritize the client's safety and explain the concern professionally. C. Tell another client about the condition. D. Perform the treatment to avoid losing money. **4. Which of the following is an example of a common**	A. Text Tool B. Shape Tool C. Crop Tool D. Brush Tool **3. Which tool is used to add and edit words in a graphic design?** A. Text Tool B. Zoom Tool C. Selection Tool D. Crop Tool **4. A student wants to create a circle, rectangle, or other basic shape for a poster. Which tool is most appropriate?** A. Brush Tool B. Shape Tool C. Crop Tool D. Text Tool **5. Why is it important to understand the purpose of different graphic design tools?** A. To use every tool at the same time B. To make designs more complicated C. To choose the appropriate tool for a specific task and work effectively D. To avoid using graphic design software **Answer Key** 1. **B** 2. **C** 3. **A** 4. **B** 5. **C**	**graphic design workspace?** A. To store computer files B. To display menus only C. To provide the area where the design is created D. To connect the computer to the internet **2. Which tool should a student use to add a title to a school poster?** A. Crop Tool B. Text Tool C. Brush Tool D. Selection Tool **3. What is the primary function of the Crop Tool?** A. To add words B. To create shapes C. To remove unwanted areas of an image D. To draw freehand designs **4. What does responsible tool selection mean in graphic design?** A. Using as many tools as possible B. Choosing the appropriate tool based on the task and purpose C. Using only one tool for every project D. Selecting tools randomly **5. Why is it important to understand the functions of graphic design tools?** A. It helps designers work efficiently and create effective visual communication. B. It makes every design look exactly the same. C. It eliminates the need to

	workers to understand RA 7877? A. To identify and prevent inappropriate behavior and know how to seek help B. To learn how to advertise beauty products C. To increase salon prices D. To avoid communicating with clients **Answer Key** 1. B 2.C 3.B 4.C 5. A	**5. Which quality is important for a beauty care and wellness professional facing changing industry trends?** A. Being unwilling to learn B. Being adaptable and responsible C. Ignoring customer needs D. Avoiding new knowledge and skills Answer Key 1. B 2. B 3. A 4. C 5. B	**salon challenge?** A. Maintaining proper sanitation B. Having access to clean tools C. Dealing with workplace conflicts and difficult customers D. Following safety procedures **5. What is the main lesson that can be synthesized from the passage?** A. Salon workers should focus only on providing beauty services. B. Legal awareness, safety, respect, sanitation, and professionalism are important in handling salon challenges. C. Customer demands should always be followed regardless of safety concerns. D. Workplace problems should never be reported. **Answer Key** 1. B 2. B 3. B 4. C 5. B		**plan a design.** **D. It allows designers to avoid learning the workspace.** **Answer Key** 1. C 2. B 3. C 4. B 5. A
Flow: Describe the activities that you can implement in one or more sessions to meet the learning objectives. Apply the *Learning Design* Principles by thinking about how to: • make the objectives clear for	**Lesson Sequence 1: Legal Basis in Beauty Care and Wellness Services: RA 7877** *The teacher introduces the* session title and learning objectives.	**Lesson Sequence 1: Trends, Issues, and Challenges in Beauty Care and Wellness Services I** The teacher introduces the session title and learning objectives.	**Synthesis and Formative Assessment on Legal Basis and Salon Challenges** The teacher introduces the session title and learning objectives.	Introduction to Graphic Design Tools: Tool Types and Purposes The teacher introduces the session title and learning objectives.	Introduction to Graphic Design Tools: Workspace, Functions, and Responsible Selection **The teacher introduces the session title and learning objectives.**

the learners • guide learners before letting them try the task on their own • check the state of the learners' well-being, understanding, and mastery over the lesson • connect today's new concepts to past competencies • encourage collaboration among learners • *invite learners to reflect on* why this matters to them • ensure inclusion for learners' varied abilities, learning styles, and contexts	**Lesson Purpose** The teacher explains that the lesson will help learners become aware of important legal and related laws regarding cases or untoward situations in beauty salons while giving services to clients. **Unlocking Content Vocabulary** *Beauty Care Materials* Beauty care Tools Beauty care Equipment **Picture Analysis** The teacher presents situations related to beauty care and wellness services. Learners describe what is happening and relate the pictures to the need for legal and respectful workplace practices. **Discussion** The teacher discusses Republic Act No. 7877 s. 1995, also known as the law declaring sexual harassment unlawful in the employment, education, or training environment. The teacher explains that work, education, or training-related sexual harassment may be committed by a person who has authority, influence, or moral ascendancy over	**Discussion: Trends, Issues, and Challenges** The teacher discusses the difficulty of hiring highly skilled beauty salon workers or staff, hired staff lacking required qualifications, purchasing the right and safe beauty care products, maintaining customers continuous patronage, and sustaining the business income, keeping beauty salon staff or workers well-motivated, providing the right compensation and salaries, updating with what is new, responding to customer service complaints, and needing a big amount of capital money to start up a beauty and wellness salon. **Activity** Learners classify each challenge as worker-related, customer-related, product-related, or business-related. The teacher guides learners in explaining how each challenge affects the quality of salon service. **Supplementary Activity: Week 2 Activity 2 - Trends, Issues, and Challenges Action Plan** **Check for Understanding and Learner Support** The teacher pauses after	**Synthesis** The teacher guides learners in summarizing the importance of legal awareness, proper training, safe products, customer care, worker motivation, compensation, updating salon tools and services, and responding to complaints. **Learners Takeaways** The teacher asks: Why is it important to be aware of our rights as individuals? How can a beauty care worker help make salon services safe and respectful? **Formative Assessment** Learners answer selected questions through oral recitation or written response. **Check for Understanding and Learner Support** The teacher pauses after each major idea or demonstration, asks learners to explain the concept or procedure in their own words, checks outputs before independent work, and provides visual *examples, oral directions,* paired support, enlarged print, or an alternative written or performance response when needed.	**Lesson Purpose** The teacher explains that the lesson will help learners identify tool types and connect each tool type to an appropriate design task. **Unlocking Content Vocabulary** Graphic Design Software - an application or tool used to create, edit, or arrange visual designs. Vector - a shape-based graphic useful for logos, icons, arrows, and simple illustrations. Raster - a pixel-based image commonly used for photographs. Resolution - the amount of detail in an image, often connected to pixels on screen or dots per inch for print. Workspace - the area in a design tool where the user creates, edits, and arranges visual elements. **Explicitation and Discussion** **Discussion: Why tools must match the task** Graphic design tools are used to create or improve visual	**Lesson Purpose** The teacher explains that the lesson will help learners justify tool choices based on task requirements, access, safety, and output needs. **Explicitation and Discussion** **Discussion: Basic workspace parts** A graphic design workspace is the area where the user creates, edits, and arranges visual elements. The canvas is the working area where the design appears. **Discussion: Common tool functions** Tool functions help the user perform specific design tasks. Move and selection tools help choose or move objects. Crop tools remove unnecessary parts of an image. Drawing and type tools create shapes and text. Painting or retouching tools can improve image details. Navigation tools help zoom in, zoom out, and move around the workspace. **Discussion: Tool selection as *a decision process*** Tool selection means choosing the most suitable tool for the design task. Learners should not begin by

Annotation: Session 1- RA 7877

- Picture analysis let learners look at real workplace situations and apply what they know, RA 7877. This helps meet the objectives because learners can spot misconduct and suggest proper responses.

	another in a work, training, or education environment. **Lesson Sequence 2: Situational Analysis in Beauty Care and Wellness Services** The teacher introduces the session title and learning objectives. **Situational Analysis** The teacher presents three situations for analysis: asking permission to attend TESDA skills training, handling a client who is drunk before a body massage, and responding to a hair rebonding incident where the hair was slightly burnt. **Guided Discussion** Learners identify the problem in each situation, discuss possible actions, and explain why the response should be safe, respectful, and professional. **Application** Learners may present a short skit or oral response showing how to handle one situation properly. **Supplementary Activity: Week**	each major idea or demonstration, asks learners to explain the concept or procedure in their own words, checks outputs before independent work, and provides visual examples, oral directions, paired support, enlarged print, or an alternative written or performance response when needed. **Generalization** The teacher guides learners in connecting the lesson to the weekly competency, the required safety or responsibility, and its practical use. Misconceptions are corrected before the formative assessment.	**Generalization** The teacher guides learners in connecting the lesson to the weekly competency, the required safety or responsibility, and its practical use. Misconceptions are corrected before the formative assessment.	outputs. The best tool is not automatically the newest or most popular tool. The best tool is the one that fits the task, the available resources, and the safety rules. Before selecting a tool, learners should first ask what they need to create: a logo, poster, photo edit, label, or layout plan. **Discussion: Vector tools and shape-based outputs** Vector tools are useful for outputs made from shapes, lines, arrows, icons, and text. Logos and icons often need vector or shape-based tools because they should stay clear when resized. For example, a club logo may use a circle, a letter, a line, and a simple symbol. These elements should remain clean and recognizable even when printed small or shown on a screen. **Discussion: Raster tools and photographs** Raster tools are useful when the output includes photographs or images made of pixels. A photo may need cropping, brightness adjustment, contrast improvement, or simple text. Learners should understand that raster images can lose quality when enlarged too much. If a small photo is stretched, it may look blurry.	asking, "What tool looks fun?" They should ask, "What output do I need to make?" A logo, poster, edited photo, label, and online announcement each need different features. **Discussion: Access and classroom condition** Access refers to the available devices, internet connection, teacher-provided files, printed samples, and time. Learners may use their own cellphones if allowed and guided by the teacher. If devices are limited, the teacher may demonstrate while learners complete a paper plan. Learners should avoid opening personal accounts or private files. Good ICT work adjusts to the real classroom condition. **Discussion: File type and submission** A design output may be submitted as an image, document, presentation slide, or printed/paper output depending on the teacher's instruction. Learners only need a practical understanding that different outputs may be saved or submitted differently. They should follow the required format and not change it without instruction.

Annotation: Session 2: Trends, Issues, and Challenges

- Classifying the challenges lets learners apply the ideas they were taught. This follows the objectives, since learners recognize different salon challenges and understand how they affect the way salon runs.

	2 Activity 1 - Beauty Care Situation Analyzer **Check for Understanding and Learner Support** The teacher pauses after each major idea or demonstration, asks learners to explain the concept or procedure in their own words, checks outputs before independent work, and provides visual examples, oral directions, paired support, enlarged print, or an alternative written or performance response when needed. **Generalization** The teacher guides learners in connecting the lesson to the weekly competency, the required safety or responsibility, and its practical use. Misconceptions are corrected before the formative assessment.			This is why photo-based tasks need careful image handling. **Discussion: Online and offline tools** Online tools may offer templates, design spaces, and easy editing features, but they need internet access and teacher guidance. Offline tools may include installed software, presentation tools, or paper-based design simulations. If internet is not available, learners can still plan layouts, choose colors, classify tools, and practice design thinking using paper or projected examples. **Discussion: Safe tool use** Learners should not download unfamiliar software, create public accounts, or share personal information just to complete a design task. The teacher may use a demonstration, printed examples, offline files, or safe simulations. Tool selection in ICT includes safety, not only design features. **Worked Example** The teacher presents three task cards: design a Tech Club logo that must stay clear when resized, improve a dark classroom photo for a poster, and plan a school announcement when there is	**Discussion: Responsible tool selection** A responsible tool choice is safe, available, and suitable for the task. If a tool requires unsafe downloads, public posting, or private information, it should not be used for the class activity. A simpler teacher-approved method is better than a risky tool because it allows the task to be completed in a safe, practical, and appropriate way. **Worked Example** The teacher presents four classroom design situations: creating a club logo, improving a photo for a poster, planning a school announcement without internet, and using one shared computer. The teacher guides learners in identifying the safest and most suitable tool or method for each situation. **Lesson Activity: Tool Match-Up** Learners read classroom-based design situations. They choose the safest and most suitable tool or method for each task and give a short reason for their answer. The activity is done after learners understand how workspace parts, tool functions, task requirement, access, safety, and output need affect tool

Annotation: session 3 - Wrap Up and check of Learning

- Through the synthesis and takeaway questions, learners connect the earlier lessons on legal awareness and salon challenges. The formative assessme lets the teacher check if learners understood the key points before mov to the next topic

Annotation: Session 4: Graphic Design Tools • The lesson teaches basic graphic design concepts. It begins with vocabulary and explanations, then exercises, so learners can define the terms and choose the tool type that fits design task		Annotation: Session 5: Design Workspace and responsible Tool choice • The parts and functions of the workspace build on the previous lessons. This helps learners understand how each tool is used and motivates them to make correct choices in their design work.		no internet. The teacher guides learners to choose a vector or shape-based tool, a raster or photo-editing tool, or an offline/paper layout method and explain why. **Lesson Activity: Tool Tracker** Learners complete a table with the following columns: design task, clue in the task, suitable tool type or method, and reason. The tasks include a shape-based logo, photo improvement, simple announcement, no-internet layout plan, and shared-device situation. **Processing / Synthesis** The teacher guides learners in explaining how the activity output connects to the lesson topic. Learners justify their answers using the terms, examples, and discussion points from the session. **Check for Understanding and Learner Support** The teacher checks learner understanding through oral explanation, guided practice, paper-based output, teacher-projected examples, or teacher-guided offline demonstration. Learners are not required to download or install software, create public accounts, or post work online.	selection. **Processing / Synthesis** The teacher guides learners in explaining how the activity output connects to the lesson topic. Learners justify their answers using the terms, examples, and discussion points from the session. **Check for Understanding and Learner Support** The teacher checks learner understanding through oral explanation, guided practice, paper-based output, teacher-projected examples, or teacher-guided offline demonstration. Learners are not required to download or install software, create public accounts, or post work online. **Generalization** The teacher guides learners in stating how ICT graphic-design tools support clear, safe, responsible, and audience-appropriate visual communication.

				Generalization The teacher guides learners in stating how ICT graphic-design tools support clear, safe, responsible, and audience-appropriate visual communication.	
Learning Resources: List down the learning resources that will help you reach your objectives. Ensure that they are available and *inclusive*. Include options and alternatives in case of emergencies.	**Primary Learning Resources:** Department of Education. Lesson Exemplar for TLE 8, Quarter 3, Lesson 2 (Week 2): Legal Basis and Situational Analysis; G8 - Q3 - WEEK 2 - EDITABLE PPT; DLL FCS 8 Week 2 D1-D5; board; marker; learner notebook; nail review sheet; picture analysis cards; RA 7877 discussion guide; situation cards **Alternative Learning Resources:** Use printed black-and-white pictures, teacher-drawn examples, or oral descriptions; Session-clean supplementary activity sheet: Week 2 Activity 1 - Beauty Care Situation Analyzer. Teacher-drawn diagrams, black-and-white picture or task cards, oral descriptions, locally available safe samples, learner notebooks, paper simulation, and supervised demonstration may be used when equipment, printed materials, or approved supplies are limited.	**Primary Learning Resources:** Department of Education. Lesson Exemplar for TLE 8, Quarter 3, Lesson 2 (Week 2): Trends, Issues, and Challenges; G8 - Q3 - WEEK 2 - EDITABLE PPT; DLL FCS 8 Week 2 D1-D5; board; marker; learner notebook; issue-solution table; challenge classification cards **Alternative Learning Resources:** Use the board, learner notebook, and teacher-prepared printed examples; Use printed black-and-white pictures, teacher-drawn examples, or oral descriptions; Session-clean supplementary activity sheet: Week 2 Activity 2 - Trends, Issues, and Challenges Action Plan. Teacher-drawn diagrams, black-and-white picture or task cards, oral descriptions, locally available safe samples, learner notebooks, paper simulation, and supervised demonstration may be used when equipment, printed materials, or approved supplies are limited.	**Primary Learning Resources:** Department of Education. Lesson Exemplar for TLE 8, Quarter 3, Lesson 2 (Week 2): Generalization and Formative Assessment; G8 - Q3 - WEEK 2 - EDITABLE PPT; DLL FCS 8 Week 2 D1-D5; board; marker; learner notebook; formative assessment sheet **Alternative Learning Resources:** Use the board, learner notebook, and teacher-prepared printed examples. Teacher-drawn diagrams, black-and-white picture or task cards, oral descriptions, locally available safe samples, learner notebooks, paper simulation, and supervised demonstration may be used when equipment, printed materials, or approved supplies are limited.	**Primary Learning Resources:** Department of Education. Grade 8 TLE ICT Three-Term Budget of Work, Second Term, Week 2: Introduction to Graphic Design Tools. Department of Education. Lesson Exemplar for TLE 8, Quarter 1, Lesson 4 (Week 4): Graphic Design Software. teacher screenshots of a graphic design workspace; sample tool icons; printed or projected tool cards; board drawings of workspace parts; learner notebooks. **Alternative Learning Resources:** Printed screenshots, teacher-made sample visuals, board drawings, paper-based design planning templates, learner notebooks, and approved offline teacher-guided demonstrations may be used when devices or internet connection are unavailable.	**Primary Learning Resources:** Department of Education. Grade 8 TLE ICT Three-Term Budget of Work, Second Term, Week 2: Introduction t Graphic Design Tools. Department of Education. Lesson Exemplar for TLE 8, Quarter 1, Lesson 4 (Week 4) Graphic Design Software. teacher screenshots of a graphic design workspace; sample tool icons; printed or projected tool cards; board drawings of workspace parts learner notebooks. **Alternative Learning Resources:** Printed screenshots, teacher made sample visuals, board drawings, paper-based desig planning templates, learner notebooks, and approved offline teacher-guided demonstrations may be used when devices or internet connection are unavailable.

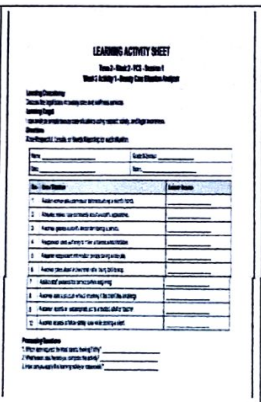

Annotation:

- The DLL lists different learning materials that help reach the objective It also gives alternative resources for when there is no internet or equipm this makes the lesson accessible to learners with different needs a resources.

Annotation:

The lessons connect different subjects so learners can see how the topic applies in real life. The workplace safety discussions link to Values Education and Araling Panlipunan, while the graphic design lessons link to Arts and ICT safety

Opportunities for Integration: Write down any possibilities to meaningfully anchor learning areas, special topic, or technology. Write N/A if none.	**Values Education:** Learners practice respect, safety, and dignity. **Araling Panlipunan:** Learners connect workplace rules with legal protection. SDG 5 and 8: Learners connect gender equality and decent work with salon workplace safety. **Values Education:** Learners practice honesty, *accountability, and* professionalism. **Career Education:** Learners connect professional behavior to workplace readiness. **Communication:** Learners practice clear and respectful responses.	**Entrepreneurship:** Learners connect salon challenges to business operation. **Career Education:** Learners recognize the value of skills training. Health Education: Learners connect safe products to client safety. **Entrepreneurship:** Learners connect capital, salaries, and customer service to business *management.* **Values Education:** Learners value fair treatment and motivation of workers. **Career Education:** Learners see the need for continuous skills development.	**Values Education:** Learners connect respect and responsibility to salon practice. **Career Education:** Learners recognize the importance of training and professionalism. **SDG 8:** Learners connect decent work with fair and safe salon workplaces.	**Arts:** choosing tools for visual creation. **English:** explaining tool functions. **ICT safety:** using tools through guided demonstration only.	**Arts:** workspace awareness for design. **English:** vocabulary development. **ICT safety:** careful and responsible tool exploration.
Assessment	*Assessments reveal what learners have gained and what they still need help with. These are helpful in providing you with information to guide your future instruction.*				
Formative Assessment: Create a task, activity, or questions to evaluate learning and provide feedback. Include ways for learners to ask for guidance or support. Remember to provide appropriate accommodations so all learners can demonstrate their understanding (e.g., varied response formats, small group options, visual or auditory supports).	**Learners answer orally:** Why is it important for salon workers and clients to know their rights under RA 7877?	**Learners identify one beauty care challenge and explain one possible solution.** Learners complete the sentence: A beauty salon can improve its service by ____ because ____.	**Learners answer:** 1. What is one legal concern in beauty care and wellness services? 2. What is one challenge faced by salon owners or workers? 3. How can the challenge be addressed?	**Learners answer:** 1. What is a raster image best used for? 2. What is a vector graphic useful for? 3. Why should learners know the purpose of a design tool before using it?	Learners identify the workspace part or tool function being described by the teacher: canvas, menu bar, toolbar, options bar, panels, crop tool, type tool, or navigation tool. Exit Question: Why should a learner choose a tool based on the design task and classroom condition?

	 Learners choose one situation and write two actions they should take to handle it properly.				
Ways Forward	*Meaningful learning can also happen beyond the classroom - for both the learners and the teacher. Pause and reflect on what happened today.*				
Extended Learning opportunities: Suggest other learning experiences outside the classroom/class hours that learners may want to access to reinforce what they have learned, to spark their curiosities further, or that may provide them support in their areas of difficulty.	Learners write one respectful workplace behavior that should always be practiced in a beauty care and wellness salon. Learners ask an adult what professional behavior means in a workplace and write one answer in their notebook.	Learners observe a local beauty care service advertisement and identify one service or product being promoted. Learners list one product or service that a salon may update to keep customers satisfied.	Learners write a short reminder for salon workers about safe and respectful workplace behavior.	Learners list three design tools or tool types they have seen and write one possible use for each.	Learners sketch a simple graphic design workspace and label the canvas, toolba menu bar, and panels.

Annotation:
The extended learning task support self-study and help learners go deeper into the topic. They are connected to the discussions in class, and they learners use what they learned outside the classrooms.

Reflections: Think about what you need to change for the next session based on what happened today. Is there something the learners are interested in exploring? Are there some things you would like to share with your co-teachers, parents, or school leaders about your classroom experience? What would you like your instructional coach to help you with? Kapt. Jose Cardones Integrated School

Form No. 1
WEEKLY MENTORING FORM

Name of Pre-service Teacher	Jade Lormie T. Porras
Program/Section	BTVTEd-ICT-CH-4A
Name of Cooperating School	Kapt. Jose Cardones Integrated School
Name of Cooperating Teacher	Shalla Marie B. Bongalbal
Date Accomplished	Oct 5, 2026
Mentoring Session No.	

A. OUTPUT/ACTIVITY EVALUATION AND COMMENTS

INSTRUCTION: Kindly provide comments or suggestions and indicate the total score on the activity accomplished by your assigned pre-service teacher for the week. The pre-service teacher shall review the feedback and use it as a basis for reflection and continuous improvement.

Strength/s

- demonstrated clear annotations in given instructions.
- evaluated the attainment of objectives by identifying the activities / assessment given.

Weakness/es

- additional explanations and evidence in attaining the set objectives in given annotation.

Suggestion/s

- collaborate w/ other teachers in identifying inputs in annotations and suggestions to meet criteria.

Criteria-based Score

B. PRE-SERVICE TEACHER'S EVALUATION AND COMMENTS

INSTRUCTION: Evaluate the pre-service teacher's demonstrated skills in each area based on actual performance during the Field Study experience. Place a check mark (✓) under the rating that best describes the level of skill demonstrated.

5 – Extremely Skilled - Demonstrates the skill consistently, independently, accurately, and effectively. Performs beyond the expected level with confidence and initiative.
4 – Moderately Skilled - Demonstrates the skill effectively and consistently with minimal guidance. Meets the expected level of performance.
3 – Developing - Demonstrates the basic skill adequately but may require occasional guidance, practice, or improvement.
2 – Needs Improvement -Demonstrates limited skill and requires frequent guidance, supervision, and practice to perform the task appropriately.
1 – Not Skilled at all - Demonstrates minimal or no evidence of the skill and requires substantial guidance and support.

MAINTAINING EFFECTIVE COMMUNICATION	5	4	3	2	1
Active listening	✓				
Receiving constructive feedback	✓				
Establishing a relationship based on trust	✓				
Identifying and accommodating different communication styles	✓				
Employing strategies to improve communication with cooperating teacher	✓				
Helping the cooperating teacher coordinate effectively with other cooperating teachers		✓			
ALIGNING EXPECTATIONS	**5**	**4**	**3**	**2**	**1**
Working with cooperating teacher to set clear expectations of the mentoring relationship	✓				
Aligning expectations with the cooperating teacher		✓			
Considering how personal and professional differences may impact expectations		✓			
Working with cooperating teacher to set goals	✓				
Developing strategies to meet goals	✓				
FOSTERING INDEPENDENCE	**5**	**4**	**3**	**2**	**1**
Motivating oneself		✓			
Building confidence		✓			
Stimulating creativity		✓			
Acknowledging professional contributions		✓			
Negotiating a path to professional independence with cooperating teacher		✓			
PROMOTING PROFESSIONAL DEVELOPMENT	**5**	**4**	**3**	**2**	**1**
Networking effectively		✓			
Setting career goals		✓			
Balancing work with personal life	✓				
Understanding impact of cooperating teacher as a role model	✓				
Acquiring resources	✓				
TOTAL SCORE	/ 20				

C. PRE-SERVICE TEACHER'S EVALUATION AND COMMENTS

INSTRUCTION: Kindly provide comments or suggestions on the performance of the pre-service teacher as a basis for reflection and continuous improvement.

Strength/s

- Communicates well
- Punctual
- Shows initiative to learn and asking instructions
- Respectful towards school personnel
- Follow instructions / assigned tasks by Cooperating teacher.

Weakness/es

* Areas to improve
  - make clear goals / and establish strategies for future class observations.

Suggestions

- prepare for creating teaching techniques, self motivation in future teaching demonstrations.
