Form No. 1
WEEKLY MENTORING FORM

Name of Pre-service Teacher	Jade Lormie T. Porras
Program/Section	BTVTED -ICT-CH-4A
Name of Cooperating School	Kapt. Jose Cardones Integrated School
Name of Cooperating Teacher	Shella Marie B. Bongalbal
Date Accomplished	October 19, 2026
Mentoring Session No.	

A. OUTPUT/ACTIVITY EVALUATION AND COMMENTS

INSTRUCTION: Kindly provide comments or suggestions and indicate the total score on the activity accomplished by your assigned pre-service teacher for the week. The pre-service teacher shall review the feedback and use it as a basis for reflection and continuous improvement.

Suggestion/s

- Well structured outputs
- Incorporate more differentiated task in activity for lesson planning
- Demonstrated mastery of the lesson

B. PRE-SERVICE TEACHER'S EVALUATION AND COMMENTS

INSTRUCTION: Kindly provide comments or suggestions on the performance of the pre-service teacher as a basis for reflection and continuous improvement.

Suggestions

- Interacts respectfully
- Punctual
- coachable attitude
- Diligent
- Dependable on assigned tasks

Evaluated By:

SHELLA MARIE B. BONGALBAL — 10/24/2026

Cooperating Teacher — *Signature* — *Date Signed*

Task Sheet No. 6:
DAILY LESSON PLAN WITH INSTRUCTIONAL MATERIAL INTEGRATION AND ICT APPS

INSTRUCTION:

As a pre-service teacher, you are tasked to develop a **detailed lesson plan** based on the identified learning competencies, standards, objectives, and content area. Using the prescribed lesson plan format (follow the ILAW Framework), design a learning experience that demonstrates clear alignment among the learning intentions, learning activities, instructional materials, ICT integration, assessment strategies, and intended learning outcomes. The lesson should maximize opportunities for integration and contextualization and should be inclusive and responsive to learners with diverse abilities, learning needs, cultures, barriers, and unique contexts.

Your completed lesson plan will serve as a professional teaching document that another teacher can implement with minimal or no additional explanation. Ensure that the learning experiences are logically sequenced, the instructional materials and ICT resources are appropriate and effectively utilized, and assessment strategies provide evidence of learners' progress and achievement. Include appropriate ways forward and interventions based on learners' performance and reflection. Submit the completed lesson plan within the prescribed period for evaluation and feedback.

RUBRIC FOR GRADING:

CRITERIA	EXCELLENT	PROFICIENT	DEVELOPING	BEGINNING
Intensions (10%)	Intentions are clearly and appropriately stated, with relevant learning competencies accurately articulated. Strong coherence and alignment are evident across all sections of the DLL.	Intentions are clearly stated, with appropriate learning competencies articulated. Coherence and alignment are evident across most sections of the DLL, with only minor inconsistencies.	Intentions are partially stated, and the learning competencies are somewhat appropriate but may require clarification. There are inconsistencies across several sections.	Intentions are unclear, incomplete, or inappropriate, and the learning competencies are not articulated. Little or no alignment is evident across the sections of the DLL.
Instructional Materials (20%)	ICT and other learning resources/materials are carefully selected, well-prepared, and effectively utilized. They are highly appropriate to the learners, strongly aligned with the learning intentions (competencies, standards, and objectives), and directly support the content and intended learning outcomes.	ICT and other learning resources/materials are appropriately selected, prepared, and utilized. They are aligned with the learning intentions and content area and generally support learners in achieving the intended outcomes.	ICT and other learning resources/materials are partially appropriate or inconsistently utilized. Alignment with the learning intentions and content area is evident but has some gaps, limiting their effectiveness in supporting learning.	ICT and other learning resources/materials are inappropriate, insufficiently prepared, or minimally utilized. They show little or no alignment with the learning intentions and content area and provide limited support for learning
Learning Experience Design (10%)	The learning experience is clear, detailed, and logically sequenced. Another teacher can implement the lesson independently without additional	The learning experience is clear and logically organized. Another teacher can implement the lesson with minimal clarification. Learning design principles	The learning experience is partially clear or inconsistently organized. Another teacher may require additional explanation to implement	The learning experience is unclear, incomplete, or poorly organized. Another teacher would require substantial explanation to implement the lesson.

	explanation. Learning design principles are intentionally and consistently embedded throughout the lesson.	are appropriately embedded in most parts of the lesson.	some parts. Learning design principles are partially evident.	Learning design principles are not evident or appropriately embedded.
Learning Experience for Opportunities and Inclusivity (20%)	The learning experience maximizes available opportunities for integration and contextualization. Instructional materials and activities are highly relevant to different learners' styles and are inclusive and responsive to learners with disabilities, barriers, and diverse culture or unique contexts.	The learning experience provides appropriate opportunities for integration and contextualization. Instructional materials and activities are relevant to different learners' styles and are inclusive and responsive to most learners with disabilities, barriers, and diverse culture or unique contexts.	The learning experience provides some opportunities for integration and contextualization. Instructional materials and activities are somewhat relevant to different learners' styles and are partially inclusive and responsive to learners with disabilities, barriers, and diverse culture or unique contexts.	The learning experience provides limited opportunities for integration and contextualization. Instructional materials and activities are not sufficiently relevant to different learners styles and are limited in being inclusive and responsive to learners with disabilities, barriers, and diverse culture or unique contexts.
Assessment Strategies (20%)	Assessment strategies are intentionally integrated throughout the session and effectively monitor learners' progression. They generate clear and sufficient evidence of whether learning outcomes have been achieved and inform subsequent teaching decisions.	Assessment strategies are integrated at appropriate points in the session and provide evidence of learners' progress and achievement. The results generally support instructional decisions.	Assessment strategies are present but inconsistently integrated. They provide limited evidence of learners' progression or achievement and only partially inform instructional decisions.	Assessment strategies are limited, inappropriate, or disconnected from the learning experience. They provide little or no evidence of learners' progress or achievement.
Ways Forward and Interventions (20%)	Ways forward and interventions are specific, practical, and actionable, clearly indicating how learning will be extended, enriched, or adjusted based on learner performance and reflection.	Ways forward and interventions are appropriate and actionable, providing reasonable adjustments or extensions based on learner performance and reflection.	Ways forward and interventions are general or partially actionable. Connections to learner performance and reflection are limited.	Ways forward and interventions are unclear, impractical, or absent, with little evidence that learner performance or reflection informs subsequent learning.

Task Sheet No. 6
DAILY LESSON PLAN

Lesson Title **Learning Area/s**	**Produce Cleaned-up Simple Key Drawings** TLE – ICT 10: Visual Arts
Name of Student Teacher/s	Jade Lormie T. Porras
Name of Cooperating Teacher	Shella Marie B. Bongalbal
Grade Level and Section	Grade 10 -
No. of Sessions	1 Session (45 minutes)
References *Books, websites, toolkits, etc.*	• TLE – ICT Visual Arts Grade 9/10 Budget of Work (BOW) • WK 5 Session 17 reference presentation, "Produce Cleaned-up Simple Key Drawings" (Innoved AI)
Learning Resources: *List down the learning resources that will help you reach your objectives. Ensure that they are available and inclusive. Include options and alternatives in case of emergencies.*	• PowerPoint presentation • TV • Tablet • Printed materials for group Activity • Pencils & erasers
Declaration of AI use *Cite how AI was used in the formulation of the lesson plan. See DO3. 2. 2026 Annex A*	Artificial Intelligence (AI) used as assistance in drafting and as an organizational tool. The teacher reviewed, validated, and modified the content to ensure its accuracy, alignment with the DepEd MATATAG Curriculum, and suitability for the learners' needs before implementation.

Intentions

Meaningful learning experiences are anchored in how we frame them. Start by deciding what you want learners to master by the end of the lesson – keep it clear and simple.
Remember: Understanding your learner's evolving context and designing around it ensure that your lessons connect with and are relevant to them.

Learning Competency and Curriculum Standards: *Write the competency/ies from the curriculum that we are targeting, and the content or performance standards applicable to the sessions*	**Learning Competency:** Produce cleaned-up simple key drawings. **Content Standards:** Demonstrate an understanding of the basics of animation, clean-up, and in-between simple drawings. **Performance Standards:** Produce cleaned-up simple key drawings.
Learning Objectives: *Write the smaller knowledge, skills, or tasks from the competency that the learners will work on and be able to show by the end of the sessions.*	At the end of the lesson, the learners are expected to: • Distinguish between "Rough Sketches" and "Clean-up Drawings" and explain the technical importance of line weight and closure in animation. • Demonstrate teamwork and care for professional work by taking turns during the group activity and keeping the drawing neat for the next person in the production process. • Produce a cleaned-up version of a simple rough key drawing using smooth strokes, closed outlines, and consistent line thickness.
Learner Context: *Write your observations of your learners, and how they have been performing or responding to learning experiences recently. Include strengths, interests, and possible barriers to learning.*	Grade 10 learners have different drawing skills. Some are confident, while others are shy to show their drawings. Short tasks, pair work, and kind feedback will help everyone join in.

Learning Experience	Learning experience is like a thoughtfully designed journey. Each activity and intersection builds towards meaningful understanding and growth. Identify activities and interactions to help learners gain knowledge, skills, or understanding in a purposeful and coherent way.	
	TEACHER'S ACTIVITY	**STUDENT'S ACTIVITY**
Pre-Lesson: *Describe how you will help the learner get ready for the lesson.*	**A. ATTENDANCE** The teacher greets the class and checks the attendance using the seat plan. "Good morning, class! Please take out one sheet of paper and a pencil while I check the attendance."	The learners take out one sheet of paper and a pencil.

	B. DRILL / MINDFUL ORIENTATION: CLEAN-UP DETECTIVE – WHO'S THE CULPRIT? "Before we begin, let us play a quick game called Clean-Up Detective: Who's the Culprit? I will show you three pictures. Each picture has one drawing mistake. Observe carefully and tell me what problem you can spot. You only need to answer aloud. Ready, detectives?"	The learners observe the three pictures on the PPT and answer aloud.
	Picture 1: The teacher shows a drawing with shaky or wobbly lines. 	
	"What is the problem with the lines in Picture 1?"	"The lines are shaky."
	Picture 2: The teacher shows a drawing with a small gap in its outline. 	
	"What do you notice about the outline in Picture 2?"	"The outline has a gap; the lines are not connected."

Picture 3: The teacher shows a drawing with uneven line thickness.  "What is wrong with the line thickness in Picture 3?" "Great job, detectives! You found the three drawing mistakes: shaky lines, gaps, and uneven line thickness. In animation, artists fix these problems during the clean-up stage. Today, we will learn how to produce cleaned-up simple key drawings using smooth lines, closed shapes, and consistent line thickness."	"The line thickness is uneven." The learners listen to the teacher's transition.
C. REVIEW: SLOW IN AND SLOW OUT (2 min) The teacher moves a marker across the board: slowly at the start, faster in the middle, and slowly again before stopping. "Class, before we start our new lesson, let us recall our previous lesson. Watch how my marker moves. What do you notice about its movement?" "What is this animation principle called?" "Why do animators use Slow In and Slow Out?" "Very good! Slow In and Slow Out makes movement smooth and natural. Now, let us look at what you will learn today."	The learners watch the teacher's demonstration and answer aloud. "The marker starts slowly, moves faster in the middle, and slows down before stopping." "Slow In and Slow Out." "It makes the movement look smoother and more natural." The learners listen to the teacher.
D. PRESENTATION OF OBJECTIVES (1 min)	

	The teacher shows the learning objectives on the PPT, arranged as Cognitive, Affective, and Psychomotor. "May I have one volunteer to read our objectives?"	One volunteer reads the learning objectives while the class follows.
Lesson Flow: *Describe the activities that you can implement in 1 or more session to meet your intentions.* Apply the Learning Design Principles, use the prompts below as a guide. Note, not all principles are expected in every lesson. • *Make the objectives clear for the learners* • *Guide learners before letting them try the task on their own* • *Check the state of the learners' well-being, understanding, and mastery over the lesson* • *Connect today's new concepts to past competencies* • *Encourage collaboration among learners* • *Invite learners to reflect on why this matter to them* • *Ensure inclusion for learners' varied abilities, learning styles, and contexts*	**A. DISCUSSION (10 min): Produce Cleaned-up Simple Key Drawings** **1. Rough sketch and clean-up drawing** The teacher shows a rough sketch and its clean-up drawing side by side on the PPT. "What differences do you see between the two drawings?" "The first one is a rough sketch. Its lines are loose and messy. The second one is a clean-up drawing. **Clean-up** is the process of refining rough animation sketches into final, polished line art." "Why do we need to clean up a drawing before coloring it?" "Animation is teamwork. If your lines are not clean, the person coloring your work cannot do their job."	The learners compare the two drawings. "The first one has messy lines. The second one has smooth lines." "So the color will not spill out." "So the next person can do the job properly."
	2. The Three Cs of Professional Clean-up • **Confidence** – smooth, unbroken strokes with no hesitation or shaky lines. *Key word: Smooth* • **Closure** – every shape is sealed, with no gaps where	

color can leak out. *Key word: No gaps* • **Consistency** – the line thickness stays steady, unless changed on purpose. *Key word: Same thickness* The PPT shows a wrong and a right example for each C. *Quick check:* "Which C is missing if the outline has a gap?"	"Closure."
3. Two Techniques for Cleaner Lines "How can we draw smoother lines? Watch me." • **Ghosting** – moving your hand or pen in the air over the paper before touching it. It helps your hand learn the path. • **Deep Breath Draw** – take a deep breath in, then breathe out slowly while you draw. It relaxes your hand and reduces wobbly lines. "How do these two techniques help the artist?"	The learners watch the teacher. "You moved your hand in the air first." "They help us draw smoother lines and reduce shaky strokes."
B. GROUP ACTIVITY (15 min): CLEAN-UP STUDIO – GROUP CHALLENGE The class is already seated in five groups (by rows). Each group gets one worksheet with a rough drawing on the left and an empty space for the clean-up drawing on the right. Materials: one worksheet per group, black pen or dark pencil, eraser. **Instructions:** "Welcome to the Clean-up Studio. Each group is a clean-up team. The animator gave your team a rough drawing: Group 1 Fish, Group 2	The groups receive their worksheet. The rough drawings are:

Turtle, Group 3 Butterfly, Group 4 Bird, and Group 5 Cat. Your job is to produce a clean-up drawing in the empty space. Use the Three Cs, Ghosting, and Deep Breath Draw. Everyone must draw at least one part, so pass the pencil around."

1. Look at the rough drawing given to your group.
2. Use Ghosting and Deep Breath Draw before you draw each line.
3. Go over the rough lines with smooth, confident strokes, close every shape, and keep the line thickness the same.
4. Pass the pencil around so every member draws at least one part.
5. Check your drawing: Are the lines smooth? Are all shapes closed? Is the line thickness the same?
6. Write your group number and member names on the back and pass the worksheet forward.

Rules for Group Work:

1. Cooperate and participate in completing the assigned task.
2. Listen respectfully to your groupmates' ideas.
3. Share the materials and use them properly.
4. Stay focused and finish the activity within the allotted time.

Time Allotment: 15 minutes

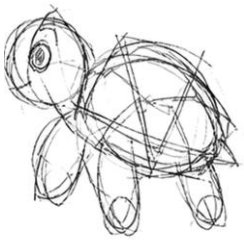

Step 1: Clean-up time

The groups work together. The teacher walks around and gives tips: "Where does this shape

Group 1 – Fish

Group 2 – Turtle

Group 3 – Butterfly

Group 4 – Bird

Group 5 – Cat

close?" "Try ghosting that curve first." The teacher gives a time check at the halfway mark.

"Before you finish, ask your group: Are the lines smooth? Are all shapes closed? Is the line thickness the same?"

Step 2: Pass the output

"Time is up. Pencils down. Write your group number and member names on the back, then pass your worksheet forward." The teacher collects the worksheets and scores them with the Activity Rubrics below.

Activity Rubrics:

Criteria	Description	Point
Confidence (Smooth Lines)	Smooth, unbroken lines; no shaky or scratchy parts.	5
Closure (Closed Shapes)	All shapes are closed; no gaps in the outline.	5
Consistency (Same Thickness)	Line thickness stays the same throughout.	5
Techniques and Teamwork	Used Ghosting and Deep Breath Draw; every member took a turn.	5
Total:		/20

5 – very well shown, 3 to 4 – mostly shown, 1 to 2 – shown a little, 0 – not shown.

C. GENERALIZATION (2 min)

The teacher asks:

"Class, how do we produce a cleaned-up simple key drawing, and how can this skill help you in school or in your future work?"

"We produce a cleaned-up drawing by using smooth lines, closed shapes, and consistent line thickness, with the help of Ghosting and Deep Breath Draw. This skill helps us keep our schoolwork, posters, and projects neat, and it

		shows care for the next person who will use our work."
Opportunities for Integration and Contextualization: *Write down any possibilities to meaningfully connect to another learning area, special topic, local context, or technology. Write N/A if none.*	**ICT:** Clean-up is also done on a digital layer in animation software. **Mathematics:** Learners see closed shapes, curves, and equal line thickness. **English:** Learners describe drawings and give polite feedback. **Values Education:** Learners show care for the next person who will use their work.	**Inclusion:** Learners with shaky hands may use a thicker pen. Everyone in the group takes a turn drawing. Deep Breath Draw can be done silently.

Assessing Learning

Assessments reveal what learners have gained and what they still need help with. These are helpful in providing you with information to guide your future instruction throughout the entire session.

	TEACHER'S ACTIVITY	STUDENT'S ACTIVITY
Formative Assessment: *Create a task, activity or questions to assess learning and provide feedback every now and then. Include ways for learners to ask for guidance or support throughout each session.* *Remember to provide appropriate accommodation so all learners can demonstrate their understanding (e.g. varied response formats, small group options, visual or auditory supports).*	**FIVE-ITEM MULTIPLE CHOICE QUIZ (5 min)** The teacher presents a five-item multiple-choice quiz on the PPT (or writes it on the board) based on the lesson Produce Cleaned-up Simple Key Drawings. The learners answer individually by writing only the letter of the correct answer. Learners who need support may raise a hand, and the teacher reads the question aloud. 1. Which of the Three Cs means smooth, unbroken strokes? A. Closure B. Confidence C. Consistency D. Coloring	The learners will answer the five-item quiz on a 1/4 sheet of paper. **ANSWER KEY** 1. B – Confidence 2. C – Closure 3. A – Consistency 4. B – A clean-up drawing has refined, cleaner lines 5. C – It helps the next person color or use the drawing properly

	2. Which C means every shape is sealed with no gaps? A. Confidence B. Consistency C. Closure D. Contrast 3. Which C means the line thickness stays steady? A. Consistency B. Closure C. Confidence D. Shading 4. What is the main difference between a rough sketch and a clean-up drawing? A. A rough sketch is always colored. B. A clean-up drawing has refined, cleaner lines. C. A clean-up drawing must have gaps. D. A rough sketch has no lines. 5. In animation, why is clean line art helpful to the next person in the production process? A. It makes the work harder to understand. B. It removes the need for teamwork. C. It helps the next person color or use the drawing properly. D. It makes all drawings identical.	
	CHECKING (3 min) "Exchange papers with your seatmate. Let us check the	The learners exchange papers, check the answers, and write the score.

	answers." The teacher reads the answer key. "Raise your hand if you got 5... 4... 3 or below."	

Ways Forward

Meaningful learning can also happen beyond the classroom – for both the learners and the teacher. Pause and reflect on what happened today.

	TEACHER'S ACTIVITY	STUDENT'S ACTIVITY
Extended Learning Opportunities: *Suggest other learning experiences outside the classroom/class hours that learners may want to access to reinforce what they have learned, to spark their curiosities further, or that may provide them support in their areas of difficulty.*	**Take-home task** "Research the job of a clean-up artist in the 1990s and today. How has technology made the job easier? Write 3 to 5 sentences."	The learners research the clean-up artist's job and compare the tools of the 1990s (paper, pencil, lightbox) with today (tablet, digital layers).
Reflections: *Think about what you need to change for the next session based on what happened today. Is there something the learners are interested in exploring?* *Are there some things you would like to share with your co-teachers, parents, or school leaders about your classroom experience? What would you like your instructional coach to help you with?* *Reflections may be written in brief notes, bullets, or annotations.*
